

IUON Mission

The IUON mission is centered on responding to the acute global shortage of professional nurses by impacting local, regional, and global health care practices and policies. As a premier world-class institution of higher learning, IUON is dedicated to providing the necessary education for individuals to achieve competent professional nursing practice skills and lifetime rewarding careers. IUON achieves this goal by offering quality academic programs of theoretical, laboratory, and clinical studies that prepares students for beginning level professional practice and future successes in advanced degrees.

IUON OBJECTIVES

-

Provide IUON students with the opportunity to develop personal and professional competencies, including the sense of responsibility and accountability to the client, the community, and the profession.

-

Embrace the use of cutting-edge technology to enhance the quality of education.

-

Offer the highest quality education in the classroom, laboratory, and clinical practice by employing highly credentialed and experienced faculty members to assist the diverse population of students.

-

Prepare qualified professionals to meet the growing shortage of our global nursing community.
